

Internax

INTERNAX, THE INTERNAL WELDING CLAMP WITH PIPE REROUNDING CAPABILITIES SUPPORTING ONSHORE PROJECTS

DEDICATED TO ROOT PASS WELDING FOR ONSHORE TRUNK LINE PROJECTS

- Enhance productivity up to 8 fully automatic oscillating welding heads for strong and wide internal bead
- Powerful re-rounding for Hi-Lo control and quick fit-up
- Wireless remote control for safety

Internax

Equipment description range

Frames: 36", 42", 48"
Minimize pipe Hi-Lo
1" 1/3 (up to 33mm) pipe thick
Capability for various terrain conditions

Welding capabilities

Process: GMAW
Position: 5G
Number of welding heads: Up to 8
Welding Travel speed: 31,5 inch/min (up to 80cm/min)

Applications

Onshore
Material/Pipe Grade: Carbon Steel

Technical characteristics

Bend crossing: up to 30D depending on model
Temperature operating range: -4°F (-20°C) to 122°F (50°C)
Weight and dimensions: (to be requested, as specific per model)
