

# SPOOLBASES & MULTI JOINTING

FIXED  
MOBILE

## THE WORLD'S PREMIUM OFFSHORE WELDING PARTNER

Serimax provides full turnkey management including welding, Non Destructive Testing and Field Joint Coating services on both mobile and fixed spoolbases or multijointing projects where our clients require reliability and the best quality focusing on flawless welding

### DELIVERING SAFE AND FLEXIBLE SOLUTIONS

As the world's leading supplier of spoolbase management services, we have worked with virtually every reel pipelay vessel in service. With our historical expertise in the operation of spoolbases worldwide, we can shape our services to optimise welding, inspection and field-joint coating results for our customers every time. We also specialise in double, quad and multi jointing on both fixed and mobile project locations, including offshore pipelay vessels, in support of our clients to meet their project schedules. This flexible and cost-effective concept optimises production by minimising joint production on the critical path, reducing overall project costs.

### DEVELOPING THE MOST INNOVATIVE AND FIT FOR PURPOSE TECHNOLOGY

We provide all the necessary technology and expertise required for pipe handling, beveling, line-up and clamping, in addition to manual and automatic welding specifically developed for spoolbase and multijointing operations, from the mainline to the tie-ins. Thanks to our proprietary technology, we can deliver adapted solutions while retaining flexibility and meeting worldwide demands for high performance.

### DRIVING LONG-TERM PARTNERSHIPS

With over 25 years of experience gained in the field, Serimax is in a position to bring adequate resources, organise and manage the complete production line to meet our clients' challenges. In this respect, we also provide in-country solutions, focus on fulfilling local content requirements, and develop adequate training plans to ensure full support in meeting your project imperatives in any global location.

Our expertise and track records have helped us build lasting relationships with the industry's leading players.
