

ILUC CARBON STEEL

SERIMAX'S ILUC'S ARE THE MOST VERSATILE AND RELIABLE LINE-UP CLAMPS PROVIDING THE BEST SOLUTION FOR THE WELDING OF ALL CARBON STEEL MATERIALS AND FATIGUE SENSITIVE LINES

- Pipe diameters : cover ranges in standard from 5" up to 64" (other diameters on demand)
- Various technology for multiple usage, pneumatic, hydraulic ensuring quality welds in all welding positions.
- With or without copper backing according to applications available, if necessary, for landlines.

ILUC Carbon Steel

Equipment Description Range

Conventional Pneumatic clamp from 5" up to 64" - Other diameters on request
 Hydraulic rerounding clamp from 36" up to 56" - Other diameters on request
 Can be set up for S Lay, J Lay, an DJ welding - Other diameters on request
 Can be used with or without copper backing ring in various design and material grade

Operating Capabilities

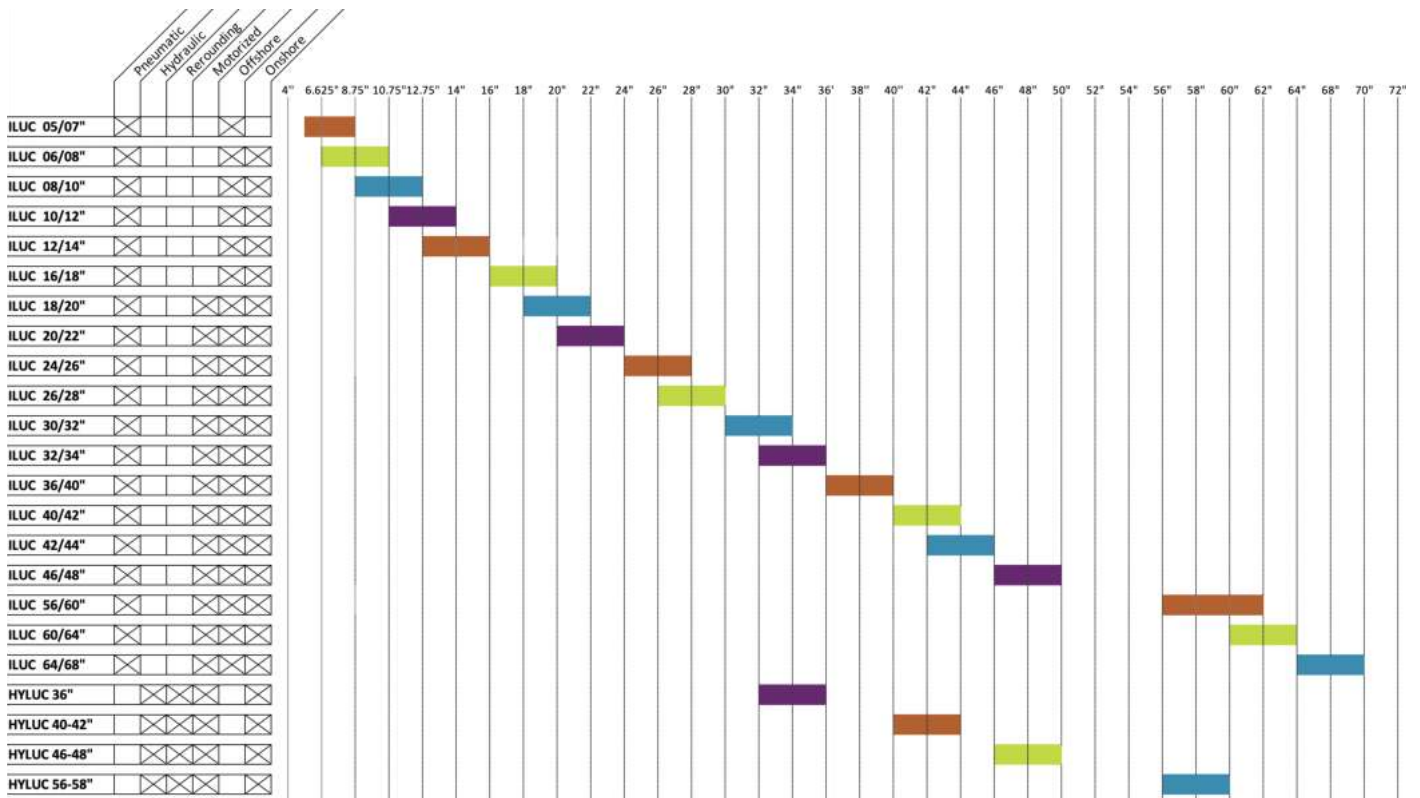

-40° +60°
 Landline and offshore

Available Features

Rerounding
 Motorized above 16"
