serimax

CleverScan

SERIMAX'S ACCURATE AND RAPID MEASUREMENT TOOL FOR PIPE END DIMENSIONS WITH PIPE FIT-UP AND SORTING SOFTWARE SUITABLE FOR PIPEMILLS, PIPEYARDS, COATING YARDS OR OFFSHORE PRODUCTION SITES PROJECTS.

MEASURING YOUR PIPE ENDS TO FACILITATE FIT-UP AND SORTING

- Improve weld quality
- Minimize in fit-up time
- Increase productivity
- Optimize pipe sorting

- Reduce downtimes
- Fulfil HiLo requirements
- Ability to measure the bevel
- Ensures integrity of welds

CleverScan

Equipment Description Range

- ID minimum 130mm
- Accuracy 50μm
- Temperature from 0°C to +50°C
- Wireless control
- Hand held with battery pack

Operating Capabilities

- Pipe material: carbon steel and stainless steel
- Landline and offshore; pipe or coating yard

Available Features

- Bevel-shape measurements
- Special kit for extreme weather conditions -25°C
- Extensive software using an in-house algorithm
- Best rotate conformity check
- Pipe sorting or sequencing

Analysis and Reporting

- Universal mechanical frame
- Autonomous power source (battery operated)
- Wireless control
- Software Features
- Integrated software for link between data acquisition & analysis phases
- Fully integrated with CleverWeld data traceability & reporting system
